~ Excerpts from Jim Gordon letters (various)

Michael says, "John, keep the vision and the dream before you always and feed it love as you would your child, for you are the parent, and it is through that parental love and guidance that it can grow to maturity." Michael is working hard for you and the foundation. As they say, keep the faith.

Things are still moving along on the inner planes a great deal toward the formation and success of the Fetzer Foundation. Last Monday the energy shifted some and it is now more of an influence of Karmas and energy from our lifetime in Israel at the time of Jesus. A Great new influx of spiritual energy and goals have been put into motion again which was started some 2,000 years ago, in Israel..

This morning a beautiful teacher came to me and took me up to the "Third Heaven" or into the mental planes. Here he began explaining to me how we had been involved in many past lives and gave one an overview of our different relationships. Sometime I will go into them, but I need to convey something else to you at this time.

After this review of our past service together he began to show me a scene of the time you were Ra in Egypt. Then as the Priest King Ra, you went through an initiation in a temple and the initiation was the final one of your studies to bring you to the level of Priest King. Myself and the teacher who was showing these scene to me were the two Initiators for you in that life and we carried you up into the inner realm for your final initiation.

Then the teacher who was showing me this scene showed me that my energy in this life was needed to help give you the final push or energy to get the foundation established as it is meant to and that was why I needed to go up and see you when you sent for me. This is why we both felt it vital I came up but yet not really understanding the why of it for sure.

This Master I speak of is the Master JESUS. Jesus then showed me that with our energies, yours and mine coming back together again, it began a process of unfoldment and today, October 17, 1981, was an anniversary, very special because it marked the 5,000th anniversary of that spiritual initiation, so today could be a very meaningful day for you and the foundation.

Then Jesus opened the sky and I looked up and there you were as Ra and a woman next to you and the sun shining behind you as if it was your aura. The woman and you then reached out your hands and presented humanity a child. The child was symbolic of the foundation, I believe. The Mother of Humanity received the child for humanity and thanked you both for "The Glorious Gift of Life." Then a group of people came in to view the child. Many people I didn't know. A few I did, your wife, Bruce, someone named Paul, Chuck, Mike, myself, a doctor from the Middle East or maybe India, and many more all came in view the child.

Then you walked over to me and handed me a beautiful ring, gold with a large diamond, and said for you a gift to signify our purpose here together and then you went to several others and did the same thing.

That was the experience I had this morning. Afterward Jesus bestowed a blessing on you, your family and the foundation and the people who are working with you to bring it about. The Blessing was the "Light Prayer of Healing" bestowing on the foundation a blessing of healing service to humanity.

This morning in meditation I was shown that there is a doctor who has been impressed on a subconscious level concerning the foundation and when he is presented the idea he will respond favorably and will know of it and the great things it is to do from an inner knowing level. If his energies are then directed properly, I feel you will have a powerhouse of energy on knowledge for the foundation to draw on. Our problem, he scatters his energy and has a hard time ever getting anything done, so you will have to work with him to help him organize his energy and time better. You and Mike both will help a great deal in this area.
